To whom it may concern,

Re: Dr. Ioannis Vasileiadis - Certificate of work at King's.

Dr. Ioannis Vasileiadis has been working full-time at King's College Hospital as an honorary fellow in advanced echocardiography since 10th May 2021 to present date, in the context of his grant from the Hellenic Society of Cardiology.

During this period, he has been trained in all forms of advanced echo modalities, including 2D/3D transthoracic and transoesophageal echocardiography, perioperative echocardiography, stress and contrast echocardiography, and 2D/3D strain.

I have no doubt that he will make an excellent cardiologist specialized in echocardiography and I have no hesitation recommending him for positions where he can use his echocardiographic skills to their full effect.

I would be very happy to provide any further information that may be required regarding this individual.

Yours sincerely,

Dr. Alexandros Papachristidis

Consultant Cardiologist
